

Wedding Protocol Director

“What is a Wedding Protocol Director?”

I am the behind the scenes person who makes sure that the plans for your special day are executed properly.

“But my Wedding Planner is going to do that.”

Then perhaps you don’t need a Wedding Protocol Director... or do you?

Ask any bride and her mother about their experience prior to the wedding and on the day of the event. Many will tell you about the exhausting task of telling everyone what to do, and the resentment and tension that was created within the family and the wedding party.

As your Wedding Protocol Director, I’ll take care of the important details that need to be handled so you can enjoy your wedding day. As a certified etiquette consultant, it is my business to handle situations gracefully, but if somebody is going to be miffed anyway, let it be directed at me.

“What about getting everyone to the Church on time?”

I’ll make the call to the member of the wedding party who is notoriously late, but if we work together, that person and I will have spoken in advance because you alerted me about the possibility.

“My bridesmaids can handle the problems.”

Of course they can, but it’s more enjoyable for all concerned to turn the working details over to your Director. They should have fun along with you.

Please sign my guest book with your contact information if you would like to discuss my services as your

Wedding Protocol Director.
